

Recreation Commission Meeting

Meeting of VCS Recreation Commission 7/29/2015

Attending: Jeff Phillips chair, Gloria McVey and Steve Etta

Started @ 7:00 pm

Previous meeting minutes discussed and approved.

Read all applications and also re-read applications formerly approved. Approved all and re-approved previous. Quick note about docking, "docking applications are approved as they come in and it is first come, first serve" we will re-visit this, as we do not want applications for next year now.

Next discussion was the Fjord trail. No final plan has been given to the commission and this is somewhat disturbing due to the 'sense of urgency' Town of Philipstown Superintendent Rich Shea put on this project in the fall of 2014. A meeting with Mayor Merandy may clear this up.

Next topic was the fall work @ Mayor's Park. A meeting with Mayor Merandy is necessary due to the fact that he has contacts w/Cornell University which is helping out. Also, we will need to commit to NO FIELD USE after work is performed. HHS soccer and Philipstown Hawks will need to practice elsewhere after first week of October. We are hopeful that water for irrigation can be taken from VCS sewer plant.

Meeting concluded @ 7:45pm
